An Empowered and Integrated AD/HD Community

With a dedicated group of staff and volunteers, ADD-ADHD Cyprus works to improve the lives of all those affected by AD/HD in Cyprus by offering support, information, education and advocacy. Membership is open to parents, teachers, doctors and specialists. Detailed information about ADD-ADHD Cyprus is available at www.add-adhd.org.cy.

This conference is designed for parents, teachers, doctors and specialists who want to better understand AD/HD, its impact on families and the classroom, and why certain approaches work better than others with AD/HD children and youth. Speakers will also address the state of AD/HD education, social welfare and justice in Cyprus, Norway, Iceland and the UK. All talks will be presented in layman's terms and will include practical advice.

Supported by a grant from Iceland, Liechtenstein and Norway through the European Economic Area (EEA) Financial Mechanism and the Norwegian Financial Mechanism and from the Republic of Cyprus
